HENDERSON CITY COUNCILWOMAN WARD 2

APRIL 2025 NEWSLETTER

Hello Friends and Neighbors,

I would like to start off with some good news from the Henderson Police Department. Our recent data is reflecting crimes against persons are down more than 4% and crimes against property is down almost 13% citywide.

Although, person crime in Ward II has increased by 4% year over year, homicides have decreased by 100%. Property crime in Ward II is also down by 9% in 2024 compared to 2023.

We have seen increases in robberies and burglaries, this is attributed to some incidents at the M Resort and construction crimes in Inspirada. We started the new year well, with a 30% decrease in person, property, and society crimes in January 2025 compared to January 2024.

Traffic concerns are another popular topic, especially in fast-growing West Henderson. Fatalities are up across the state, and Ward II has a higher percentage increase in traffic crashes than the citywide average, including fatal crashes. To combat this citywide, we've increased traffic stops by more than 50% and an even higher increase in Ward II of 61%.

We all want to live in a safe and sustainable neighborhood, and I encourage you to join in your local neighborhood watch or start one.

On a final note, the West Henderson Police Substation front desk is now open.

Let's work together,

Monica
